

Dear Canada Class,

I hope you are all doing well, being good and listening to your adults. You are such an amazing bunch and I am missing being greeted by your cheeky smiling faces each morning.

I am so proud of each and every one of you for working hard and making the progress you did before we had to say goodbye for a little while.

There are lots of things you can be doing at home to keep your brains strong such as reading daily, practicing your tables, keeping a daily diary and checking out the resources available on our website.

However, the most important thing is to have fun and try not worry, spend time with your family, play games, watch films, make memories and keep on smiling! I am looking forward to hearing what you have been up to.

Hopefully we will all be together again soon and I'll make sure we have lots of fun and exciting things to do for when we are. Until then, stay positive, stay safe, keep washing those hands and stay at home.

Best wishes to you and your families.

Take care,

Miss Keeler ☺
